

Challenge #1 of 4:

```
01101000 01110100 01110100 01110000 01110011 00111010 00101111 00101111
01101101 01100011 01110100 01100110 00101110 01101001 01101111 00101111
00110110 01100110 00110101 01100010 00111001 00111001 01100110
```

Looked like binary so I used CyberChef to decode and got the URL

THE
FUTURE
IS*****

Kickstarter Challenge #1

Congratulations! You found a Kickstarter Challenge!

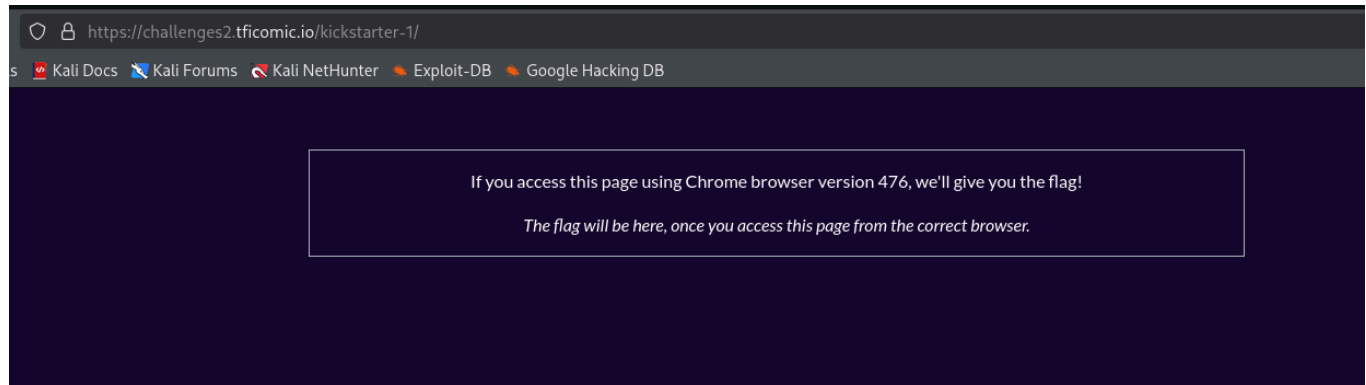

Here's a small bonus for finding it: **KEY{6f5b99f}**. Submit it as a "Bonus" [here](#).

Solve the challenge below for additional points. The flag will be in format **KEY{...}**:

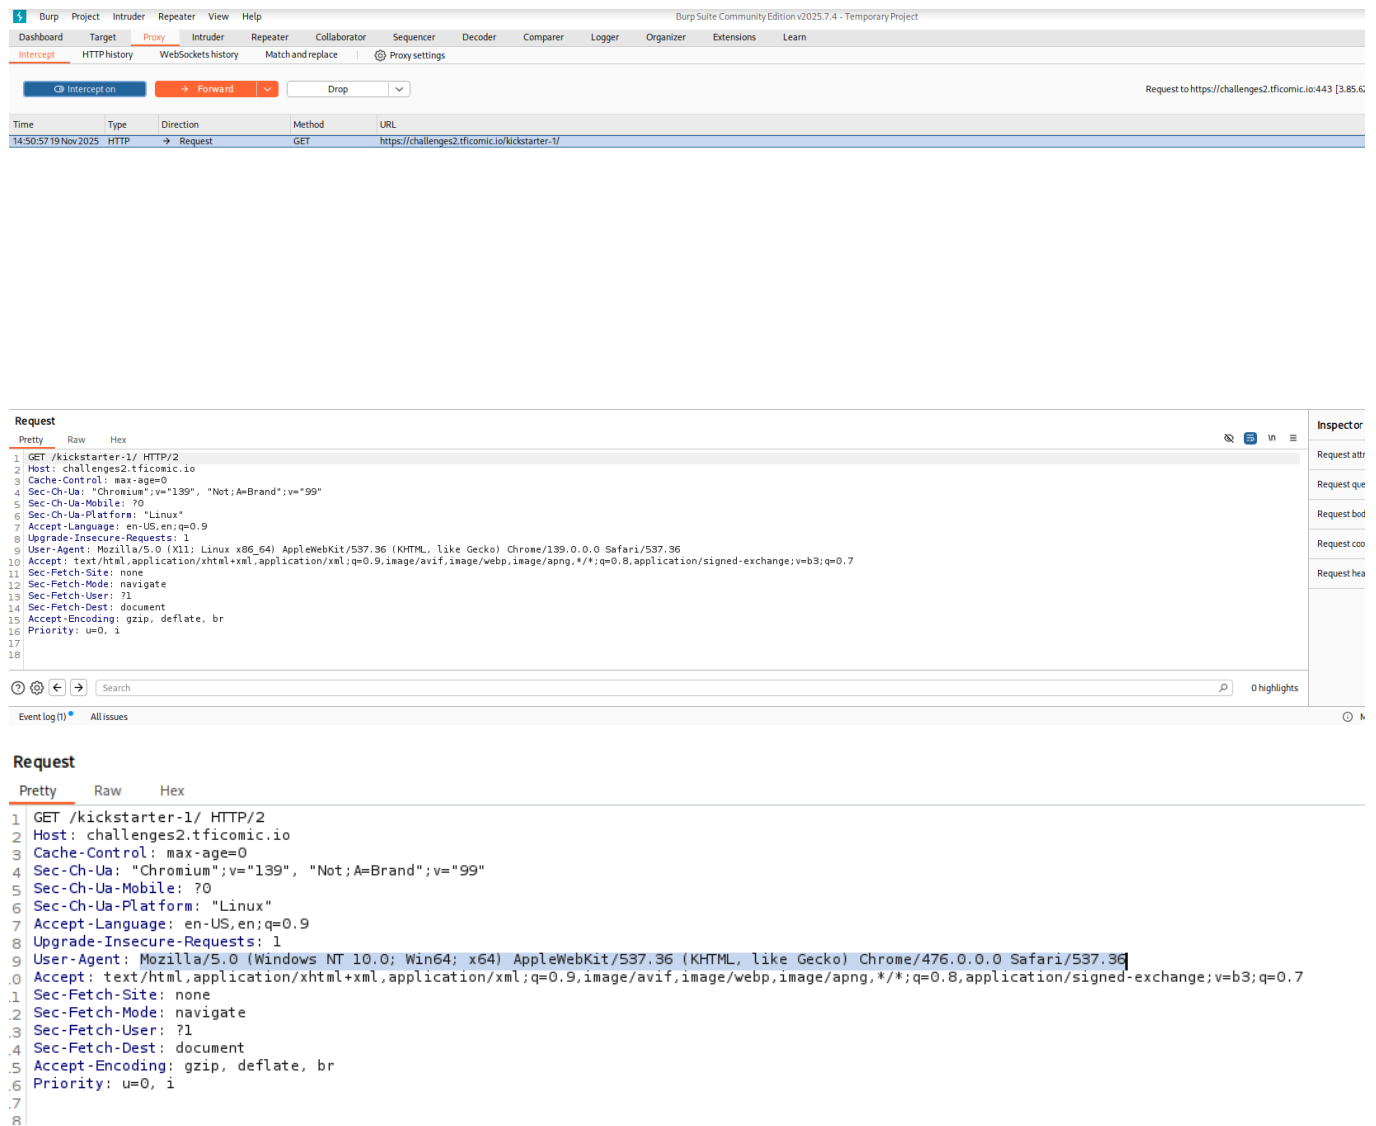

The comic is set in the future... can you prove to us that you belong here?

Access the challenge [here](#).

Opens to a basic html site

Opened in Burpsuite to see each GET and POST request as well as make it easier to tamper with the UA

After looking up the UA for the Chrome v476 browser I got the key
